RE: Verification of Consumers' Continued Eligibility for Lifeline

By this letter, ALLTEL, on behalf of its wireline operations with ETC status, certifies, in "default" states and in "non-default" states that have prescribed the use of the FCC's statistically valid sample procedures (listed below) and that require reporting of such to the FCC and USAC, that it has procedures in place to verify the continued eligibility of a statistically valid random sample of its Lifeline customers. The results are provided below.

Company Name	Default / Non-default	SAC	State	# of Lifeline cust. surveyed	# of Lifeline cust. found to be ineligible	# of Lifeline cust. who did not respond to survey*
ALLTEL Arkansas, Inc.	Default	401691	AR	42	0	33
ALLTEL Kentucky, Inc.	Non-default	260402	KY	109	0	106
Kentucky ALLTEL, Inc.	Non-default	269691	KY	43	0	42
Kentucky ALLTEL, Inc.	Non-default	269690	KY	125	0	120
ALLTEL Florida, Inc.	Non-default	210336	FL	121	0	111
ALLTEL, Mississippi, Inc.	Non-default	280453	MS	36	0	36
ALLTEL Pennsylvania, Inc.	Non-default	170176	PA	43	0	43
ALLTEL Alabama, Inc.	Non-default	250302	AL	170**	0	148

*Note: This number includes incomplete responses. Per the FCC's direction in Public Notice DA 05-1406 (rel. May 18, 2005), companies should update their filing upon completing the survey.

**Note: Due to the relatively low number of Lifeline Customers in ALLTEL's Alabama properties, a 100% survey was completed.

Additionally, to the extent any ALLTEL wireline customer qualifies for Lifeline based on their income, I certify that for "default" states ALLTEL has income verification procedures in place and that, to the best of my knowledge, the company was presented with corroborating income documentation. Further, I certify that for "non-default" states ALLTEL is in compliance with state Lifeline income certification procedures and that, to the best of my knowledge, documentation of income was presented.

Further, I state that I am an officer of the Companies represented herein and I am authorized to make these certifications.

FCC - MAILROOM

Re: AT&T/BellSouth Merger, WCB Docket No. 06-74

Dear Ms. Dortch:

AT&T and BellSouth are before the Federal Communications Commission requesting approval of a proposed merger that would create the largest telecommunications company in the country, one that would not only control nearly half of the nation's phone lines, but many television, cellular phone and Internet providers. It is because of the scale of this merger that we ask you to consider certain allegations that have been brought against each company in your transfer application analysis.

Last month USA Today reported that AT&T, BellSouth and Verizon provided the National Security Agency with private phone records of thousands of customers. The FCC had originally denied an American Civil Liberties Union (ACLU) request to investigate these allegations because of a predicted government roadblock to any investigation of this nature at a time of heightened national security. However, with this merger request now at the Commission's feet, it is necessary to consider the validity of these concerns regarding lack of consumer safeguards.

The FCC is required to review the conduct and character of the applicants when considering a merger, while also weighing the benefits of the merger on the public. The character of a company is based on a history of compliance with Commission laws and regulations, one of which protects the privacy of telephone calling information. Neither company is able to prove it has safeguarded consumer calling information without an investigation into the privacy concerns that have arisen. In addition, if either company were found to have disclosed private phone records without the consent or knowledge of the FCC, that is a violation of Commission law. Public interest will be greatly harmed by the merger of two companies that cannot be trusted in both past and future activities.

Public benefit must outweigh public harm when two companies are approved for a merger. If it cannot be proven that AT&T and BellSouth acted within guidelines set by the Commission concerning privacy, then we request that approval not be granted. The disclosure of private records without consent or even knowledge of the parties being exposed makes the creation of the largest telecommunications company a dangerous one.

On behalf of concerned citizens who would be affected by this merger, please investigate the allegations before your committee as you consider the application transfer of AT&T and BellSouth.

Sincerely,

Linda Coleman
